### Fast-Growing Firm Expands Across New England

# RELIABLE RESPIRATORY NAMES CHIEF OPERATING OFFICER

**NORWOOD, MASS. (Issued November 2007)** - Reliable Respiratory, based in Norwood, Mass., one of New England's fastest growing home respiratory equipment suppliers, has named Bob McTighe as Chief Operating Officer.

McTighe brings over 20 years of managerial experience, helping to grow and develop organizations that are respected leaders in their field. He earned a B.S. in Engineering from Tufts University and an MBA at the Amos Tuck School of Dartmouth College. He has led the administrative and finance functions of various distribution, manufacturing, and high-tech organizations.

Reliable Respiratory supplies a wide range of CPAP (continuous positive airway pressure) units for patients suffering from sleep-disordered breathing, nebulizers for those requiring medication dispensed as a liquid mist, and oxygen cylinders and concentrators for home use.

The company works with hundreds of physicians' offices, hospitals and sleep labs throughout New England and is an in-network provider with most major insurance companies.

On his appointment, McTighe said, "I'm excited to join Reliable Respiratory whose growth potential is phenomenal as the fields of sleep therapy and airway management expand. It's heartening to join a company that's so patient-focused and is having such a profound, positive impact on improving the quality of so many people's lives through CPAP, nebulizer and oxygen therapies."
